## **Moutin Reunion Quartet**

*Something Like Now*

Nocturne Records

.....

French rhythm section siblings Francois and Louis Moutin make no bones about their love of Weather Report and the influence is exhibited here, particularly on the two-part title track and 'Touch And Go' with its 'Night Passage' groove, both penned by drummer Louis. Ex-Miles Davis saxophonist Rick Margitza never seems short of ideas, whether blowing on the generally energetic material or the mellower offerings such as 'Surrendering' or 'Tomcat'. Highly recommended. **BK**
