"The Franco-American Moutin Reunion Quartet arrived for their first visit to the UK with no shortage of recommendations. Parisian twins Francois and Louis Moutin have formed a much-respected bass and drums partnership for leading French jazz players, including the brilliant pianist Martial Solal. And in Rick Margitza they boast a tenor saxophonist whose CV includes late period Miles Davis and who for many fellow saxophonists is the man currently to follow. **There's no question that they lived up to the heavyweight expectations.**" - *Rob Adams in the Herald (Glasgow).*
